EXPERIENCE

ADP, Inc. Costa Mesa, CA.

Lead Software Engineer. Sep 2022 - PRESENT.

- Planning, developing, and implementing design systems, tokens, and user interfaces.
- Leading development of reusable components, layouts, and feature flows.
- Collaborating with UX, backend engineers, POs, and security team to enhance existing features and develop new ones.
- Delivering successful projects such as user enrollment, card upgrade, and activation flows.
- Conducting design reviews pre-project kick-off to mitigate development challenges.
- Enforcing best practices, conducting thorough code reviews, and optimizing development workflows.

ADP, Inc. Senior Application Developer (UI). Feb 2021 - Sep 2022.

- Led a major rebranding project for Wisely app, establishing a design system foundation and implementing new development process to guarantee the integrity of user interfaces.
- Developed and maintained web applications built with React, Redux, TypeScript, HTML and CSS/Sass.
- Implemented engineering practices like unit tests, continuous builds and automated deployment.
- Fine-tuned user experience (UX) and resolved technical issues based on user behavior data.

Restaurant 365, LLC, Irvine, CA.

Front-End Software Engineer. Nov 2019 - Mar 2020.

- Developed components with React, Redux, TypeScript, CSS-in-JS and Material UI.

DAVID KONTOROVSKY

949.336.2587 | <https://davidkontorovsky.com> | david@kontorovsky.email

- Rapidly produced prototypes for stakeholders.
- Debugged, fixed, and improved React components.

Workday, Inc., Pleasanton, CA.

Software App Engineer. Jan 2015 - Nov 2019.

- Helped design and develop a new version of a customer portal using LAMP stack on top of Drupal, Twig templating engine, JavaScript, jQuery, Node, Sass, HTML, and PHP, and using tools like Grunt, Gulp, Composer, Git, and others.
- Implemented and integrated PatternLab custom component library, and concepts of atomic design.
- Implemented Zurb's Foundation framework for emails.
- Created and maintained Grunt Front-End development tasks.
- Held design reviews with UX team to evaluate frontend solutions.
- Simultaneously played scrum master role, leading my team through our Agile process.
- Expanded and improved existing test automation suite using Selenium, PHPUnit, SauceLabs and Bamboo.
- Monitored test quality to ensure alignment with test automation standards.
- Logged bugs and/or enhancement requests on JIRA.

JStokes Agency, Walnut Creek, CA.

Senior Web Developer. Sep 2014 - Jan 2015.

- Responsible for the full spectrum of web development and maintenance requirements.
- Site debugging and SEO optimization.
- Server and MySQL database set-up.
- Development and customization of WordPress themes and plugins, and landing pages for numerous clients.

EDUCATION

- Internet Programming. College of San Mateo, San Mateo, CA.
- LL.M. in US Legal Studies. Golden Gate University, SF, CA.
- JD. Universidad Santa Maria, Venezuela.
- Systems Engineering. I.U. Politecnico Santiago Marino, Venezuela.
